MISSION STATEMENT

LANsultants' goal is to provide innovative and appropriate technology solutions to business problems at competitive costs with fanatical post sale service and hassle free warranty replacement, if the need arises. We believe we provide lower cost and higher quality computer service than an in-house IT department can. Looking to 2005, we are striving to move from "break & fix" to preventive maintenance and managed services.

Holiday Schedule

LANsultants is scheduled to close at 3:00 PM on Wednesday, November 24th and remain closed all day on Thursday, November 25th and Friday, November 26th in celebration of Thanksgiving Day. Last year we were most surprised to receive service calls on the Friday after Thanksgiving, which was unprecedented in our service history. If more than an isolated office or two plan on scheduling a normal work day for Friday, November 26th, LANsultants will arrange to have a skeleton staff on hand to address any emergencies that may arise. As we are planning on providing Friday off to our staff, we hope you are planning the same. If you plan on opening your office on Friday, November 26th please send an e-mail to Shirlean (shirlean@lansultants.com) by November 19th so we can schedule the appropriate workforce.

Section 179 Deduction

The IRS allows \$102,000 in capital goods purchases, such as computers, copiers, telephones, office furniture and vehicles, to be expensed in 2004 without depreciating over multiple years. As the end of year approaches, a computer upgrade may provide the income deferral your firm is looking for.
