DATA ARCHIVE

Have you archived a copy of your 2006 data offsite? Upon completion of your 2006 year end accounting, LANsultants recommends that a comprehensive data backup tape be made and that this tape be archived permanently offsite. Although it's unlikely that you will ever have to access this tape's data, the low cost of a backup tape is well worth the piece of mind this backup provides. This is more true now than ever as recently enacted Federal Electronic Discovery Rules (16, 26, 34, 33, 45 among others) increase the burden of cooperating with electronic discovery. Though these new rules do not require that all computer files be saved forever, they do require implementation of reasonable retention policies. For more information visit: www.uscourts.gov/rules.
